

To pursue a growth-oriented career in a technology driven environment and achieve professional excellence and career advancement through innovation, integrity and commitment.

EDUCATION

Bachelor of Engineering (B.E.) Electrical & Electronic Engineering

East West Institute Of Technology, Bangalore

2019

CGPA - 5.90

Pre-University

Seshadripuram Composite PU College, Bangalore

2014

68.66%

Secondary Level School Certificate (SSLC)

The New Cambridge High School, Bangalore,

2012

79.36%

PROJECTS

ROBOTIC DETECTION OF PHYSICAL FAULTS IN UNDERGROUND CABLES USING RASPBERRY PI

- Main aim of our project was to reduce human effort & time consumption in underground fault detection,
- Current scenario of digging along the cable laid and then pulling the cable out and checking the fault exits in the cables is a tedious work
- This is not only is wastage of man-power and money for the companies, but also causes a lot of inconvenience to the normal public.
- The robot that we have designed is very much user friendly and can easily controlled and it is cost effective

INTERNSHIP

Intern

BHEL (Bharat Heavy Electricals Limited)

Role

- Training at BHEL has proven to be quite faithful, It proved an opportunity for encounter with intriguing products like solar photovoltaic, insulators, quality, management and safety measures of employees
- It has proved to be satisfactory, it has allowed me an opportunity to get an exposure of the practical implementation of theoretical fundamentals.

SKILLS

HTML

CSS

Bootstrap

Javascript

React

NodeJS

ExpressJS

MongoDB

ACHIEVEMENTS

Actively participated in organizing the Department activities.

Participated in 'AKRITI 2K17 & 2K18' college cultural fest.

Participated in 4th National Level Project Competition "IEEE PROJECT EXPO-2019"

Secured 1st class in National Level Science Talent Search Exam

KEY ASSETS

Ability to learn quickly and perform well

Regarded as a self-motivated and well-organized team player.
